Welcome to Kidney Solutions

Kidney Solutions is facilitated by transplant professionals, recipients and living donors who desire to assist members in finding a living kidney donor and help them and their families through the pre and post transplant process.

What We do for Our Members

MEMBER MENTORING

- Educate members and families about the option of living organ donation.
- On-going phone or video chat support as needed.
- Family member support.
- Day-of-transplant member family support.
- Post-transplant support.

LIVING DONOR SEARCH

- Guidance in writing an individual's "Kidney Story".
- Professional biography podcasts which members can distribute.
- Mentor members in how to identify and share their story with possible donors.
- Promote member stories on social media.
- Provide flyers and other promotional materials to facilitate a living donor search.

Kidney transplantation is an excellent option for members with kidney disease who want to live a life free of dialysis.

Once a person has made the decision to pursue a transplant, time matters.

Studies indicate that the less time the member is on dialysis, the better the transplant outcome. When possible, receiving a preemptive transplant (never going on dialysis at all) leads to higher transplant success rates.

Kidney Solutions does not provide medical advice.

With member consent, Kidney Solutions will coordinate with the member's transplant team in an effort to provide consistent messaging and enhance member support.
